📍 **Nantes, France** 🚀 **15 years in digital · 10 in Product Management**

🎯 **Open to Senior / Lead PM roles · B2B SaaS · Nantes, hybrid or remote**

Senior Product Manager, **10 years in product**, in **B2B SaaS** (AB Tasty, Everysens) and enterprise settings (SNCF Connect & Tech), **engineer by training**, with four years on the technical side before product. My specialty: **growth** for SaaS products, from onboarding to self-serve monetization. At AB Tasty, I lead the shift from a Sales-Led to a **hybrid model**: business case and roadmap with leadership, two PMs led, a self-serve funnel shipped behind a feature flag. I decide with data (**SQL, Metabase, Mixpanel**) as much as with user interviews.

Senior Growth Product Manager

May 2025 — Present · 1 year 6 months

- **Self-serve funnel shipped to production behind a feature flag**, ready to launch: public sign-up, limited freemium, Hyperline billing scoped end to end (payments, subscriptions, feature access by plan). Launch put on hold after AB Tasty's merger with VWO.
- **Business case and roadmap for the hybrid model carried to leadership**: moving from a 100% Sales-Led model to one where large accounts stay with Sales and everyone else signs up and pays on their own.
- **Led 2 Product Managers** on the workstream: splitting the plan, scoping trade-offs, overall consistency.

Product Manager

Sep 2023 — May 2025 · 1 year 8 months

- **+15% activation rate, -20% Time-to-Value**: a qualification engine at sign-up, then a **personalized onboarding** for each user profile.
- **Mandatory 2FA rolled out to 100% of the user base** in successive waves, paced so Customer Success Managers could support their clients: no activity loss, near-zero support impact.

Everysens

Nantes, France

Product Manager

Apr 2022 — Sep 2023 · 1 year 5 months

- **-50% entry time, +20% user satisfaction**: technical and functional rework of the entry module, secured with leadership and delivered incrementally, **MVP shipped in under 2 months**.
- **User adoption and data reliability as the module roadmap's priorities**: transport entry, waybill validation, real-time tracking.

Product Manager

Sep 2020 — Apr 2022 · 1 year 7 months

- **+100% conversion rate** on the first step of ticket retrieval on Prêt à Voyager: journey reworked from traveler feedback collected on Twitter (daily extraction via Zapier), platform rebuilt in-house.

- **A shared product mission and vision** for the online-store stakeholders and the marketing team, formalized and communicated.

Junior Product Manager

Aug 2016 — Sep 2020 · 4 years 1 month

- **From business need to delivery**: workshops and high-level sizing with business teams, roadmap and Story Mapping, User Stories and BDD scenarios, acceptance of delivered features.
- **Elected lead of the company's Product Management community of practice**, **100+ people**: first to hold the role, re-elected for a second term (2 × 5 months). Practice insights, workshops, mentoring 2 to 3 people.
