

Antoine Berthaud

Senior Growth Product Manager at AB Tasty

📍 Nantes, France

🚀 10+ years in Product

Product Manager with **10+ years of experience** across SaaS and enterprise environments (AB Tasty, Everysens, SNCF Connect & Tech). I drive discovery, prioritization, and delivery of features with measurable impact, relying as much on user interviews as on data — **SQL, Metabase, Mixpanel** — to turn intuitions into validated, scalable decisions. In several teams I've also held the day-to-day **Product Owner** role: backlog, user stories, sprints.

+15%

Activation rate (AB Tasty)

-50%

🔄 What defines me

User First

No feature without a quantified user problem.

- Weekly focus on discovery, interviews & user testing.
- Every priority backed by field evidence, not assumption.

Data Informed

Intuition starts the test, data validates it.

- Fluent in SQL, Metabase and Mixpanel to track real performance.
- Decisions settled by measurement, not conviction alone.

Iterative

Continuous learning on the way to Product-Market Fit.

- A 'Fail Fast' culture with short delivery cycles (Agile).
- Every iteration narrows the gap between hypothesis and reality.

TOTAL
3 years

Senior Growth Product Manager

May 2025 — Present · 1 year 4 months

Senior Product Manager within AB Tasty's Growth pillar, on the Experience Optimization SaaS platform (A/B Testing, Personalization).

KEY ACHIEVEMENTS

- ☐ Led the strategic shift from a Sales-Led model to a **hybrid model** (Sales-Led for large accounts, Product-Led for the rest).
- ☐ Designed and launched a **self-serve acquisition funnel**: public sign-up, limited freemium offer, self-service monetization with integrated payment.
- ☐ Coordinated 2 other Product Managers across a scope, each steering a delegated part of the strategy.

Product Manager

Sep 2023 — May 2025 · 1 year 8 months

PM responsible for "Product eXperience" on the Experience Optimization SaaS platform (A/B Testing, Personalization).

KEY ACHIEVEMENTS

- ❑ Rolled out mandatory 2FA authentication across **100% of the user base**, with near-zero support impact and no activity loss.
- ❑ Redefined the product vision around retention and engagement ("Make our users fall in love with our product, repeatedly").
- ❑ Built a product data infrastructure automating tracking of **key KPIs (churn, retention, activation, TTV)**.
- ❑ Reworked onboarding through a user qualification engine and a new activation journey: **-20% Time-to-Value, +15% activation rate**.

Product Manager

Apr 2022 — Sep 2023 · 1 year 5 months

Owned the "Execution" factory within a SaaS platform for rail freight transport management and tracking, aimed at shifting freight from road to rail to decarbonize transport.

KEY ACHIEVEMENTS

- Drove the roadmap for the transport entry module, waybill validation, and real-time tracking, with a strong focus on user adoption and transport data reliability.
- Stakeholder management work to bring leadership on board with a technical and functional overhaul, delivered incrementally (**MVP delivered in under 2 months**).
- Result of the overhaul: **-50% entry time, +20% user satisfaction**.
- Conducted user research and UI/UX design independently (Hotjar, Heap) before a Product Designer joined the team.

Product Manager

Oct 2021 — Apr 2022 · 6 months

PM on the Prêt à Voyager health-pass platform (pretavoyager.sncf.com, now decommissioned), letting travelers self-check their health pass and train ticket in the context of Covid-19.

KEY ACHIEVEMENTS

- Redeveloped a platform initially built externally, with a business goal of smoothing station boarding.
- Gathered user insights (Twitter, Zapier) and improved the user journey: **+100% conversion rate** on the first step of ticket retrieval.

PM on the online store generation tool for transport ticket sales, serving two clients: Transilien (boutique.transilien.com) and TER (smart-card ordering stores).

KEY ACHIEVEMENTS

- Defined a shared product mission and vision for stakeholders and the marketing team.
- Set the 2021 strategy backed by OKRs, defined the delivery roadmap, prioritized the backlog and wrote User Stories.
- Relunched discovery (user surveys, mining available data) and led agility/product management watch within the community of practice.

Community Lead (rotating role)

Apr 2019 — Feb 2020 · 10 months

Rotating role leading the agile product management community of practice at Evoyageurs Technologies.

KEY ACHIEVEMENTS

- Shared Product Management practice insights within a dedicated peer community of **100+ people**.
- Ran workshops and exercises to help the community grow.
- Mentored 2 to 3 people throughout the term.

Agile / Scrum

Mentoring & Coaching

Junior Product Manager

Nov 2017 — Sep 2020 · 2 years 10 months

Owned the web services distribution asset for regional and urban ticket sales (TER).

KEY ACHIEVEMENTS

- Ran scoping workshops and rough estimation of issues raised by the business owner, maintained the roadmap and Story Mapping.
- Wrote User Stories and associated BDD scenarios, ran Sprint Plannings.
- Provided functional support to the development team and validated delivered features.

Junior Product Manager

Aug 2016 — Nov 2017 · 1 year 3 months

Junior PM on lot 2 of the group-ticket sales digitalization project (MBG) for SNCF sales staff and travel agencies (B2B).

KEY ACHIEVEMENTS

- Ran needs-gathering workshops with the client, defined the solution in sync with partner projects (WDI, FERIA, Viva Groupes).
- Wrote User Stories and presented the solution to the development team, then provided follow-up and functional support through delivery.

 **Methodology** — Scrum  **Team** — 5 developers, 1 Scrum Master

Developer & Functional Analyst — IT consulting engagements (Eurogiciel, Sigma Informatique, Virage Group)

Feb 2011 — Jan 2015 · 3 years 11 months

Before moving into Product Management: IT consulting engagements for Eurogiciel, Sigma Informatique and Virage Group.

KEY ACHIEVEMENTS

- Development (Java), functional analysis and specification writing for clients such as Thales Alenia Space and several major retail chains (Gileco / E.Leclerc group).
- Project management (planning, dashboards) and QA/testing.

 **Methodology** — V-Model, Scrum  **Team** — Up to 5 people depending on the engagement

LINKEDIN RECOMMENDATION

“

“Antoine is a human, engaged and demanding product manager, driven by real enthusiasm. He knows how to structure his team's collaboration time intelligently and loves bringing out the best in each person. I can only recommend him to strengthen an ambitious, collaborative team.”

Alix Paoli

CX Designer at Decathlon · Former colleague at AB Tasty

Side projects

Tour de Growth

A free growth check-up tool (AARRR framework), designed and launched to provide a quick assessment. In plain language rather than jargon, it shows where a growth strategy is already on the right track and where it isn't yet.
